JavaScript

React

Git & Github

HOBBIES

📖 Gaming

📖 coding

PROFILE

Dedicated web developer with a strong foundation in creating interactive and user-friendly applications, leveraging solid programming skills and a commitment to continuous learning and improvement.

EDUCATION

BCA | Maa Shakumbhari University

April 2023 – June 2025

- CGPA:7.1
- Minor in Web Development.
- Identified design inefficiencies and proposed UX/UI improvements

EXPERIENCE

Self Projects

1. TaskRaftaar – Task Management App

- Built a dynamic task tracking app using React that allows users to add, update, complete, and delete daily tasks.
- Used React state and props to manage tasks efficiently.

2. Rock Paper Scissors Game

- Developed an interactive browser-based Rock Paper Scissors game with simple animations and user vs computer gameplay
- Tech Stack: HTML, CSS, JavaScript

3. Calculator Web App

- This calculator supports basic arithmetic operations like addition, subtraction, multiplication, division, modulus, and decimal numbers. It includes features like AC (All Clear), DEL (Delete Last Digit)
- Tech Stack: HTML, CSS, JavaScript
