📄 Projects

• Calculate

Tech Used: HTML, CSS, Javascript

Description: A responsive and interactive web-based calculator built using HTML, CSS, and JavaScript. This calculator supports basic arithmetic operations like addition, subtraction, multiplication, division, modulus, and decimal numbers. It includes features like AC (All Clear), DEL (Delete Last Digit), and an intuitive UI that mimics the layout of modern digital calculators.

• Rock Paper Scissor

Tech Used: HTML, CSS, JavaScript

Description: A simple interactive Rock-Paper-Scissors game built using HTML, CSS, and JavaScript. This project demonstrates the use of DOM manipulation, localStorage, and basic game logic to create a fun and responsive browser-based game.

• TaskRaftaar

Tech Used: React.js

Description: Task Raftaar is a powerful task management app built using ReactJS. It helps users manage daily tasks with ease — add, update, delete, track progress, and clear all tasks with just one click!
